(\*) On April 1, 2019, the Company conducted a four-for-one stock split, so the figures are based on the assumption that the stock split was conducted at the beginning of the previous fiscal year.

#### Reasons for Differences between Consolidated Earnings Forecast and Actual Results

Although the revenue for the consolidated actual results were above the forecast, the operating profit was affected approx. ¥ 12.5 billion by the change in the product mix in the medical business, and the cost of sales ratio worsened due to the fall in unit prices due to the fierce competition in the imaging business, and Provision for expected additional indirect tax from an internal assessment done by an overseas subsidiary: approx. ¥ 5.3 billion, Provision for impairment loss of for development assets for products for gynecology: approx. ¥ 2.1 billion, have been recorded, as a result, the consolidated earnings forecast announced on February 8, 2019 has fallen.
